Appeals Relating to Selection to World Wheelchair Curling Championships (WWhCC)

This document sets out the Appeals Procedure where an Athlete (“the Appellant Athlete”) wishes to appeal a selection decision taken in respect of WWhCC selection. The SC Appeals Procedure will be adopted for this purpose.

An Athlete seeking an appeal of a selection decision should be aware of the time limits contained in the policy, which are designed with the intention of resolving issues in a timely, fair and transparent manner.

This Procedure is the only applicable appeals procedure and forms the entire agreement between each team wishing to be selected for the WWhCC and BC and SC (together, “the Parties”). The Parties agree not to commence, continue, or maintain any legal challenge to any matter covered by this policy before any court of law. The Parties will treat all decisions under this Procedure as final and binding upon them.

The SC Appeals Procedure consists of one stage:

- **Stage 1.** An internal appeal panel to consider the grounds and merits of the appeal. Where the selection relates to the WWhCC.

All players should read this policy carefully and satisfy themselves that they are eligible to appeal in the first instance. Any appeals which do not satisfy the grounds of appeals will be dismissed automatically.

1. Grounds for Appeal

An Athlete may appeal against a selection/nomination decision relating to the WWhCC on one or more of the following grounds:

- a. The correct selection process was not followed;
- b. A decision maker was biased; OR
- c. The decision was made on an error of fact.

2. Appeals Procedure

This Appeals Procedure begins when an Appellant Athlete submits a formal written appeal that identifies one of the permitted grounds of appeal (“the Notice of Appeal”) to the CEO of Scottish Curling, Bruce Crawford, bruce@scottishcurling.org.

The Notice of Appeal must be received by SC within **3 working days** of the de/selection decision, being communicated in writing (usually via email).

The Notice of Appeal must set out the full details of the Appellant Athlete’s ground(s) of appeal and include:

- a. Details of the decision which the Athlete is appealing;
- b. Details of the ground(s) of appeal upon which the Athlete relies, including the manner in which the Appellant Athlete alleges that such ground(s) apply; AND
- c. Any documents or written evidence upon which the Appellant Athlete relies in support of his or her appeal.

- b. **Uphold** the appeal and remit the matter back to the original selection group, outlining the errors they have identified in the conduct of the original de/selection process, and request that a new decision is made within 48 hours.

The British Athletes Commission (BAC), provides independent, confidential advice and support to performance athletes and BAC members, with selection process, disputes and appeals.

The BAC is always balanced and independent in its advice to athletes and if it feels there are no grounds for appeal, it will say so. The BAC offers pastoral and emotional support throughout any process as well as referring athletes to Sport Resolution UK (SRUK) to request pro-bono legal advice if necessary.

Assessment of Ability to Compete Process

The sport's doctor will run a "fit for" process which ultimately ensures that every selected Athlete is fit to travel to the WWhCC and compete. Separate to this, it is the sport's responsibility to ensure that the Athlete is fit to compete to the "best of their ability" (as the experts in the sport and with knowledge of the Athlete).

In the event of there being a query over the ability of an Athlete to be able to compete to the best of his/her ability due to an injury or illness, the procedure described below will be adhered to;

1. The sport's doctor can require an Athlete to undergo a medical examination to determine his/her fitness to participate. This examination will be carried out by the sport's doctor delegated to him/her. If the Athlete fails the medical examination he/she will be withdrawn from the team and SC may (if appropriate) nominate a replacement Athlete in accordance with its selection policy.
2. If the Athlete passes the medical examination carried out in accordance with (i) above but SC still has concerns over whether or not the Athlete is able to compete to the best of his/her ability due to the underlying injury or illness, the Head Coach can require the Athlete to undergo a set of pre-determined sports specific performance tests. The tests must be set out in the selection policy and may not be varied or amended without prior approval of SC. The tests will be conducted by the sport's doctor (or his/her delegate). If the Athlete fails the test (which can be undertaken on more than one occasion and within a short time frame if appropriate), he/she will be withdrawn from the team on medical grounds and, if appropriate, a replacement can be nominated by BC/SC in accordance with the selection policy.

Post Injury Fitness Testing Procedure

Aims

1. To assess the Athlete's fitness to compete.
2. To make a decision about whether the Athlete will be selected or de-selected for a specific game/competition.
3. If necessary, decide on a follow-up course of action (i.e. re-test at a later date).

Pre-test Procedure

Prior to testing the Athlete's fitness to compete, ongoing assessment of rehabilitation progress will normally be conducted by the physiotherapist and Athlete (and possibly the doctor). This might include some aspects of physical activity that are used to evaluate functional fitness but this would not constitute a fitness to compete test and the coach would therefore not normally be involved. The Athlete and medical team will make a judgment about the Athlete's readiness for a "fitness to compete" test. The Athlete has the right to a "fitness to compete" test even if the medical teams do not think that the Athlete is yet ready to successfully complete the test. The medical team must ensure that the Athlete is fully informed and aware of the potential risks involved in completing an early "fitness to compete" test.

A time and date will be agreed with all parties for the "fitness to compete" test to be conducted. Consideration needs to be given to the post test response of the Athlete and selection deadlines.

Fitness to Compete Test

Personnel:

Core people present may vary depending on fitness/injury but would normally include the Athlete, Head Coach/team leader, doctor and physiotherapist. Additional personnel could be another Athlete for help in holding of the chair/ delivering the stones etc.

Content:

The "fitness to compete" test will be led by the physiotherapist. The specific content will vary according to injury/positions etc., but will have been agreed by the medical team, Athlete and coach prior to the test and the Athlete informed of the

World Wheelchair Curling Championship 2021

Selection Policy

expected content. The test will be designed to assess the Athlete's functional fitness (i.e. their ability to complete the physical, technical and tactical requirements of their position).

A typical "fitness to compete" test will comprise of;

- (a) Dynamic warm up.
- (b) Execution of shots of varying weight of delivery.
- (c) Cool down.

Post Test Procedure:

If the Athlete is unable to complete the "fitness to compete" test then they will be deemed not fit to participate in the specific game or competition for which the test was conducted and an action plan regarding further rehabilitation (and possible re-test) will be agreed.

If the Athlete is able to complete the "fitness to compete" test then an initial open discussion will take place with all present regarding the degree of fitness to compete that the Athlete has achieved. This should include judgments about:

- The Athlete's physical function fitness.
- The Athlete's curling specific fitness.
- The risk of re-injury or secondary injury.

The physiotherapist will keep a written record of this discussion and the conclusions drawn which will be kept with the Athlete's patient notes.

Decision:

The decision about the Athlete's fitness to compete rests with the Head Coach and Executive Performance Director.

Dissemination of Information:

With the Athlete's permission, the Head Coach/Executive Performance Director will then inform other relevant personnel (i.e. the other athletes and staff, media).
